

BHAGABAN GHADAI

Bhubaneswar, Odisha | Ph: +91-8249157613 | personal.bhagwan@gmail.com | linkedin | github

SKILLS

Programming Languages: JavaScript , TypeScript , Python , Golang

Technologies: NodeJs, ExpressJs, FastApi, MongoDB, Postgres, MySQL, Redis, Websocket, Git, Github, RestApi, GraphQL, Celery, RabbitMQ, Kafka, GLP stack(logger), ELK Stack, Docker, CICD, Jenkins, AWS

EXPERIENCE

Housivity Platform Private Limited – Gujarat, India

Backend Developer

April 2025 – present

- **Microservices & Messaging:** Engineered a robust asynchronous messaging architecture using RabbitMQ. Implemented advanced patterns like delay exchanges and dead-letter queues to ensure 100% reliability for critical dispatch tasks.
- **Infrastructure & Monitoring:** Managed containerized microservices on Kubernetes. Configured Prometheus and Alertmanager to route real-time system health alerts to Slack and email, significantly reducing incident response time.
- **System Reliability:** Diagnosed and resolved complex production issues, including race conditions in cron jobs during service restarts, ensuring data consistency across distributed services.
- **Tech Stack:** Node.js, Bun, Nest Js, MongoDB, RabbitMQ, Redis, Open search, Docker, Kubernetes, Digital Ocean, AWS, Lambda , Cloud front, Cloud Watch

IRAITECH INNOVATION & TECHNOLOGY – Delhi, India

Backend Developer

Dec 2022 – Nov 2024

- **Scalable API Design:** Built and maintained high-performance RESTful APIs using Python (Django/FastAPI) and Node.js, serving dynamic data to frontend applications.
- **Database Optimization:** Designed flexible MongoDB schemas to handle complex, dynamic data structures, optimizing query performance for heavy read operations.
- **Performance Tuning:** Identified bottlenecks in backend logic and optimized database queries, resulting in faster API response times and improved user experience.
- **Collaboration:** Worked closely with cross-functional teams to integrate backend logic with React-based user interfaces.

PROJECTS

Seat Reservation Platform

Designed and developed a seat reservation platform that enabled users to book seats in **real-time** across various venues. Implemented features such as real-time seat availability, booking confirmations, integrations using. Ensured the platform was scalable and optimized for high traffic, improving user satisfaction and operational efficiency.

ECommerce

Engineered a microservices e-commerce platform with features including product catalogue management, shopping cart functionality, and secure **payment** processing. Integrated third-party APIs for shipping, enhancing the platform's functionality and user experience. Leveraged to build a robust and scalable solution.

Social Media

Developed a social media application with features such as user profiles, posts, comments, and **websocket** for real-time messaging and posts. Implemented **authentication**, user engagement tracking, and content moderation systems to ensure a **secure** and **engaging** platform. Used for feature-rich user experience.

EDUCATION

STAR COLLEGE OF ENGINEERING AND MANAGEMENT – Bhubaneswar , Odisha

June 2014 – May 2017

Bachelor of Computer Applications

77.20%
